

# Addressing the Pain Points of Manually Processing Financial Documents

*A Customizable AI-OCR Platform  
Document Processing Solution for  
Accounts Payable, Accounts  
Receivable and Finance Accounting  
Departments*

Introducing the **vDigiDocr** AI-OCR Platform Developed by vInnovate Technologies

# Background to the Solution

Research indicates that; *"Businesses lose an average of 20% of their revenue due to inefficient financial document processing.*

*The overwhelming volume of paper invoices, purchase orders, receipt notes, bank statements, etc. can lead to increased processing times, errors, and ultimately, reduced cash flow.*

*Our AI powered Document Processing Platform, **vDigiDocr**, is designed to streamline this process, addressing these pain points effectively."*

# The **Pain Points** of Manual Processing

## Compliance Challenges

Maintaining compliance and accurate reporting is difficult.

## Data Entry Errors

Errors in data entry lead to discrepancies and financial losses.

## Processing Delays

Slow operations cause delays in payment cycles and supplier relationships.

## Storage Issues

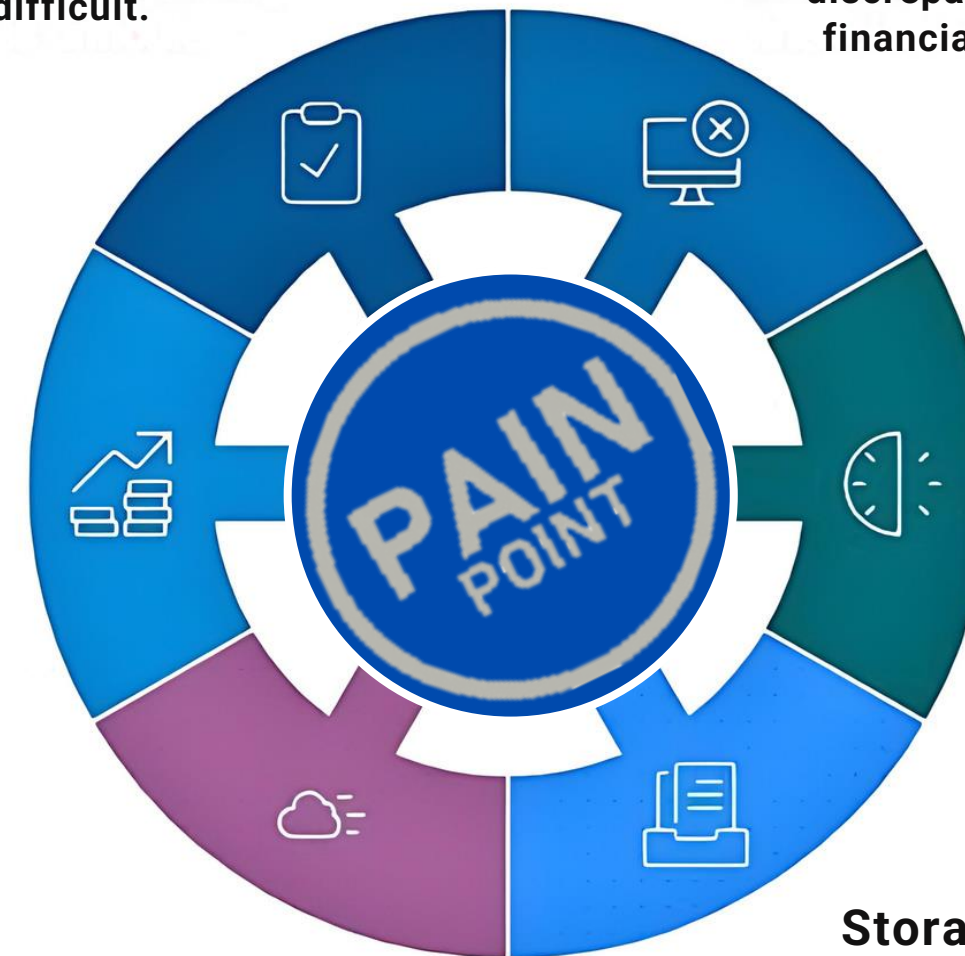

Cumbersome storage makes document retrieval time-consuming.

## Lack of Visibility

Difficulty in tracking invoice status leads to confusion.

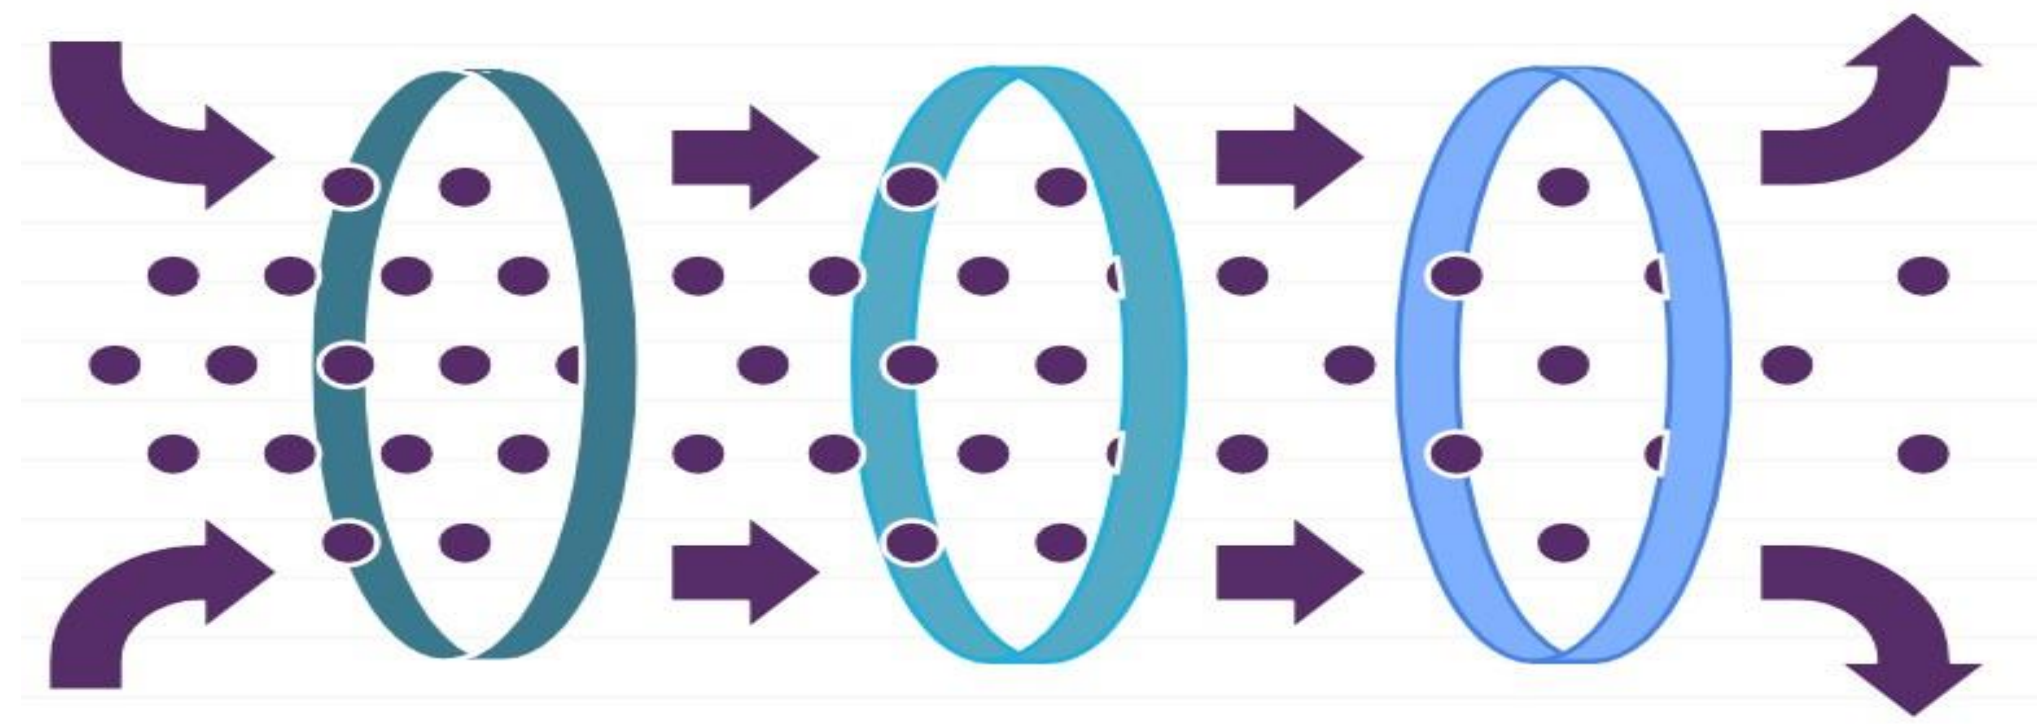

## High Costs

Additional labor and resources reduce overall profitability.

# The **Pain Relief** offered by *vDigiDocr*

Avoiding Manual Data Entry Errors:

**Document Capture**

Automatic Identification of key data fields in Finance Documents

**Data Extraction**

Extraction of data for storage, reporting and transfer to ERP System

**Error Reduction**

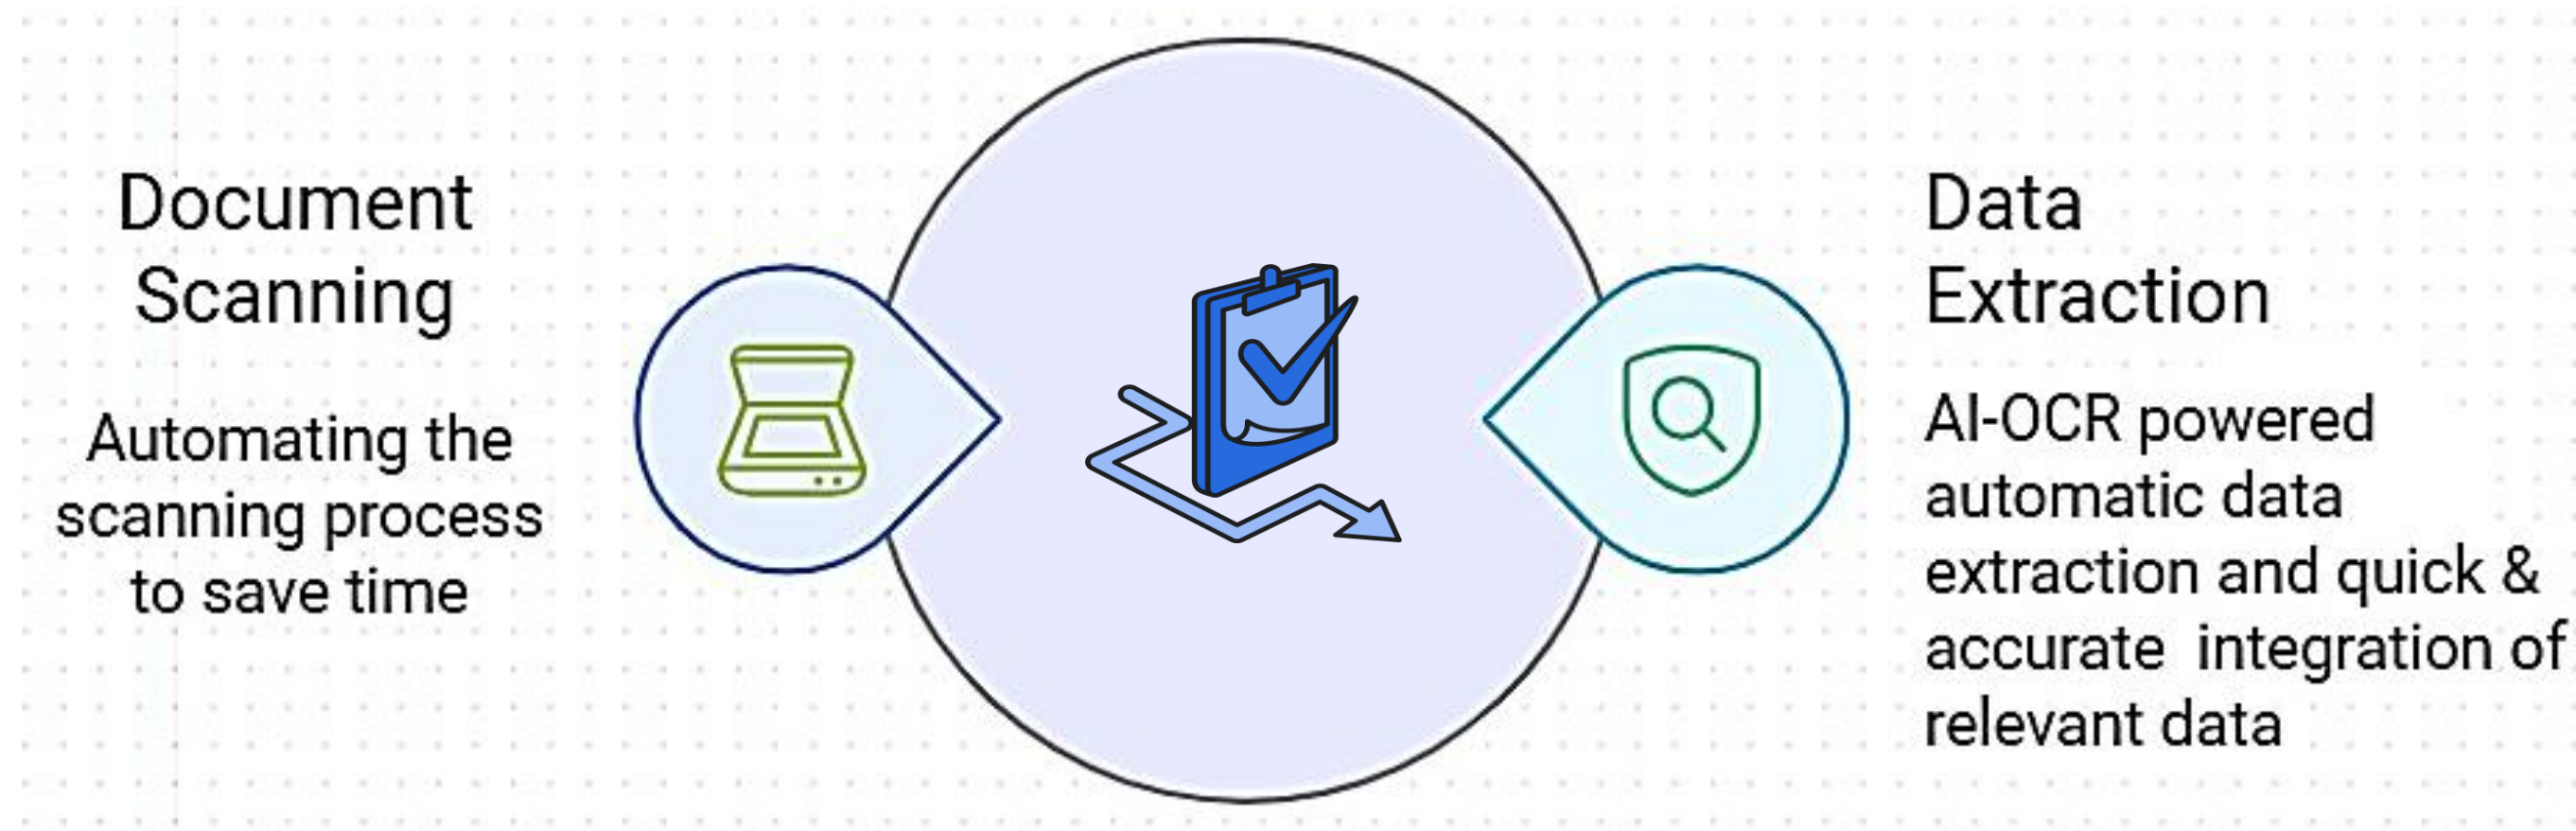

Thus avoiding manual entry mistakes

Avoiding Processing Delays:

# The **Pain Relief** offered by *vDigiDocr*

Avoiding Storage Problems:

Paper vs. Digital

**Paper**

Causes clutter and complicates audits

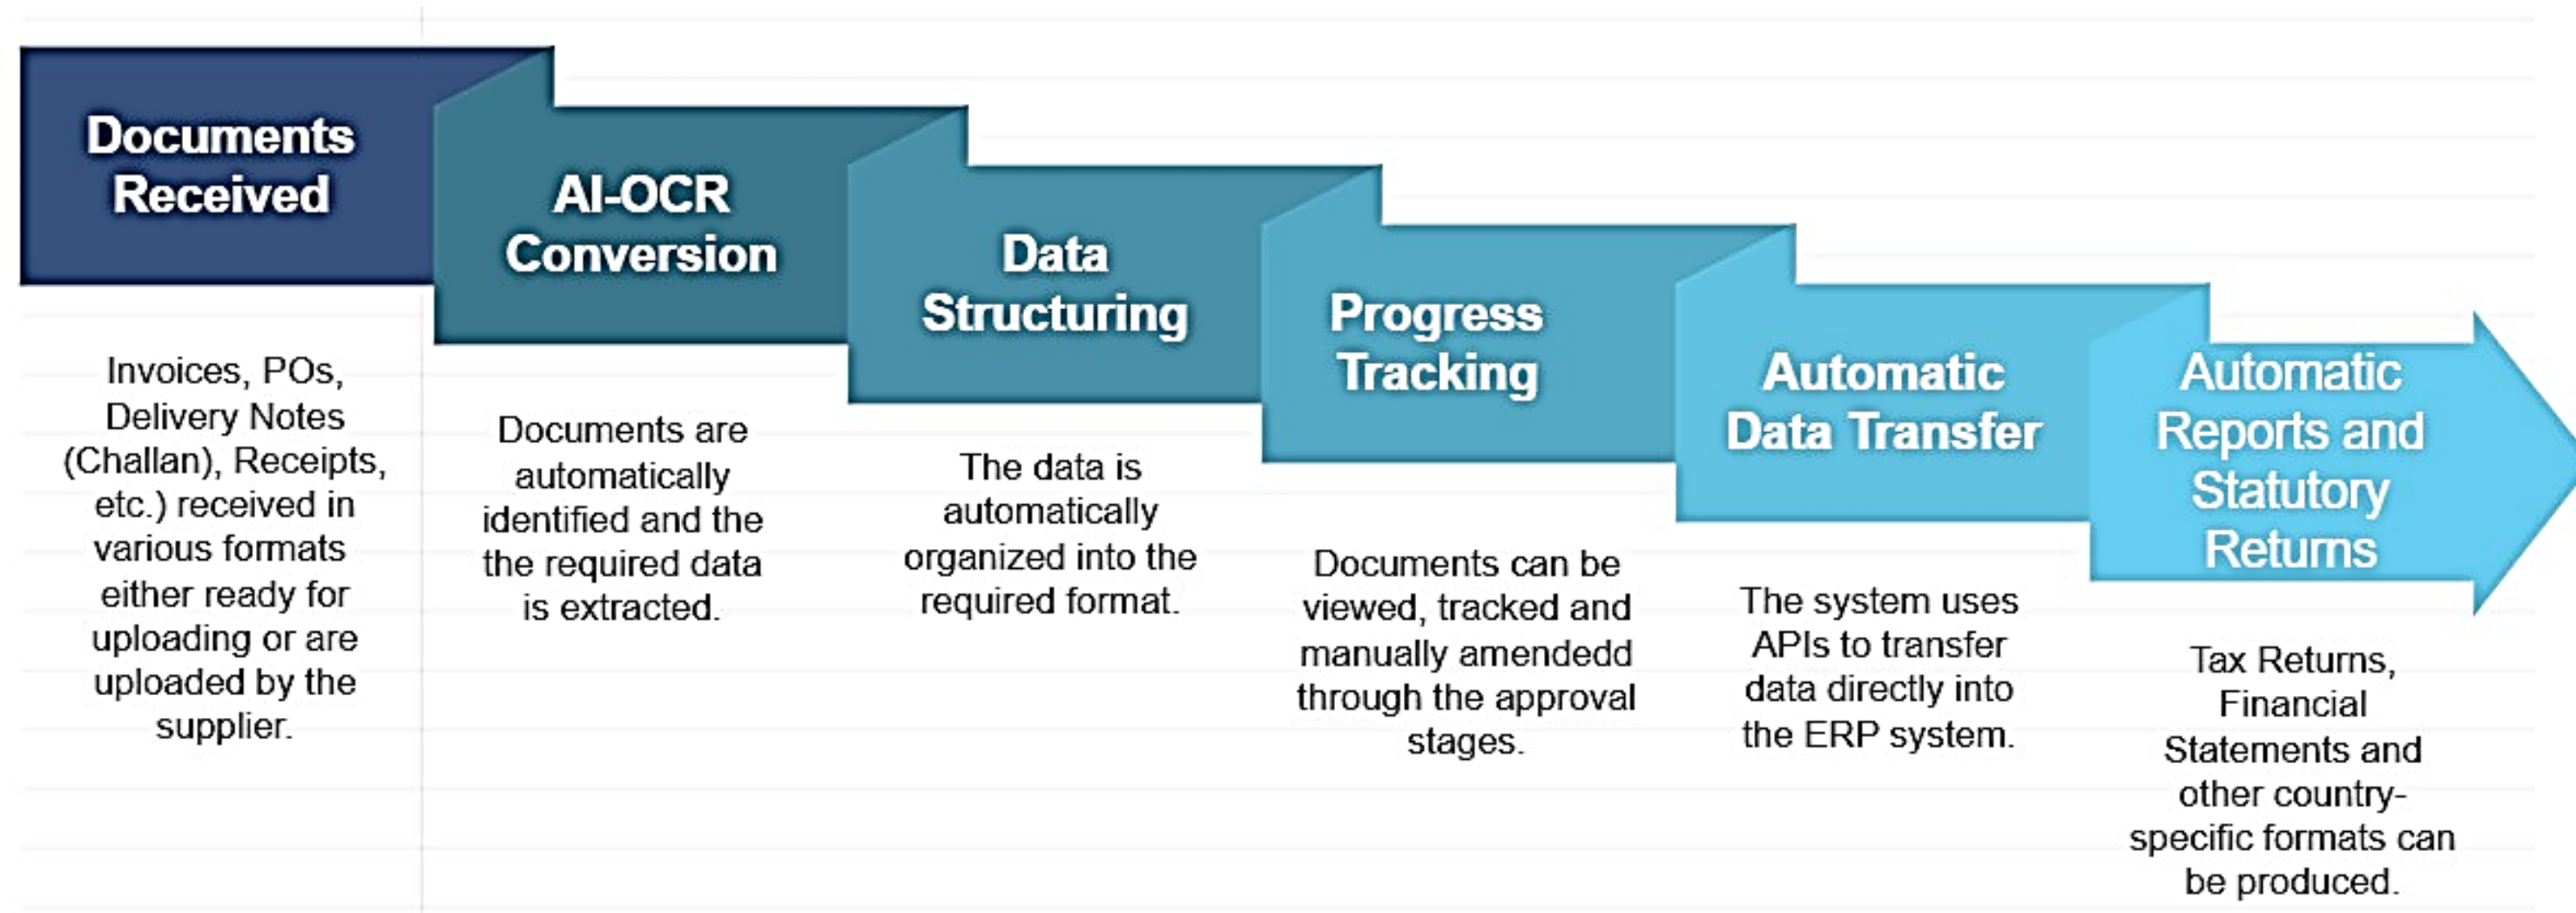

**Digital**

Saves space and enhances retrieval

# The **Pain Relief** offered by *vDigiDocr*

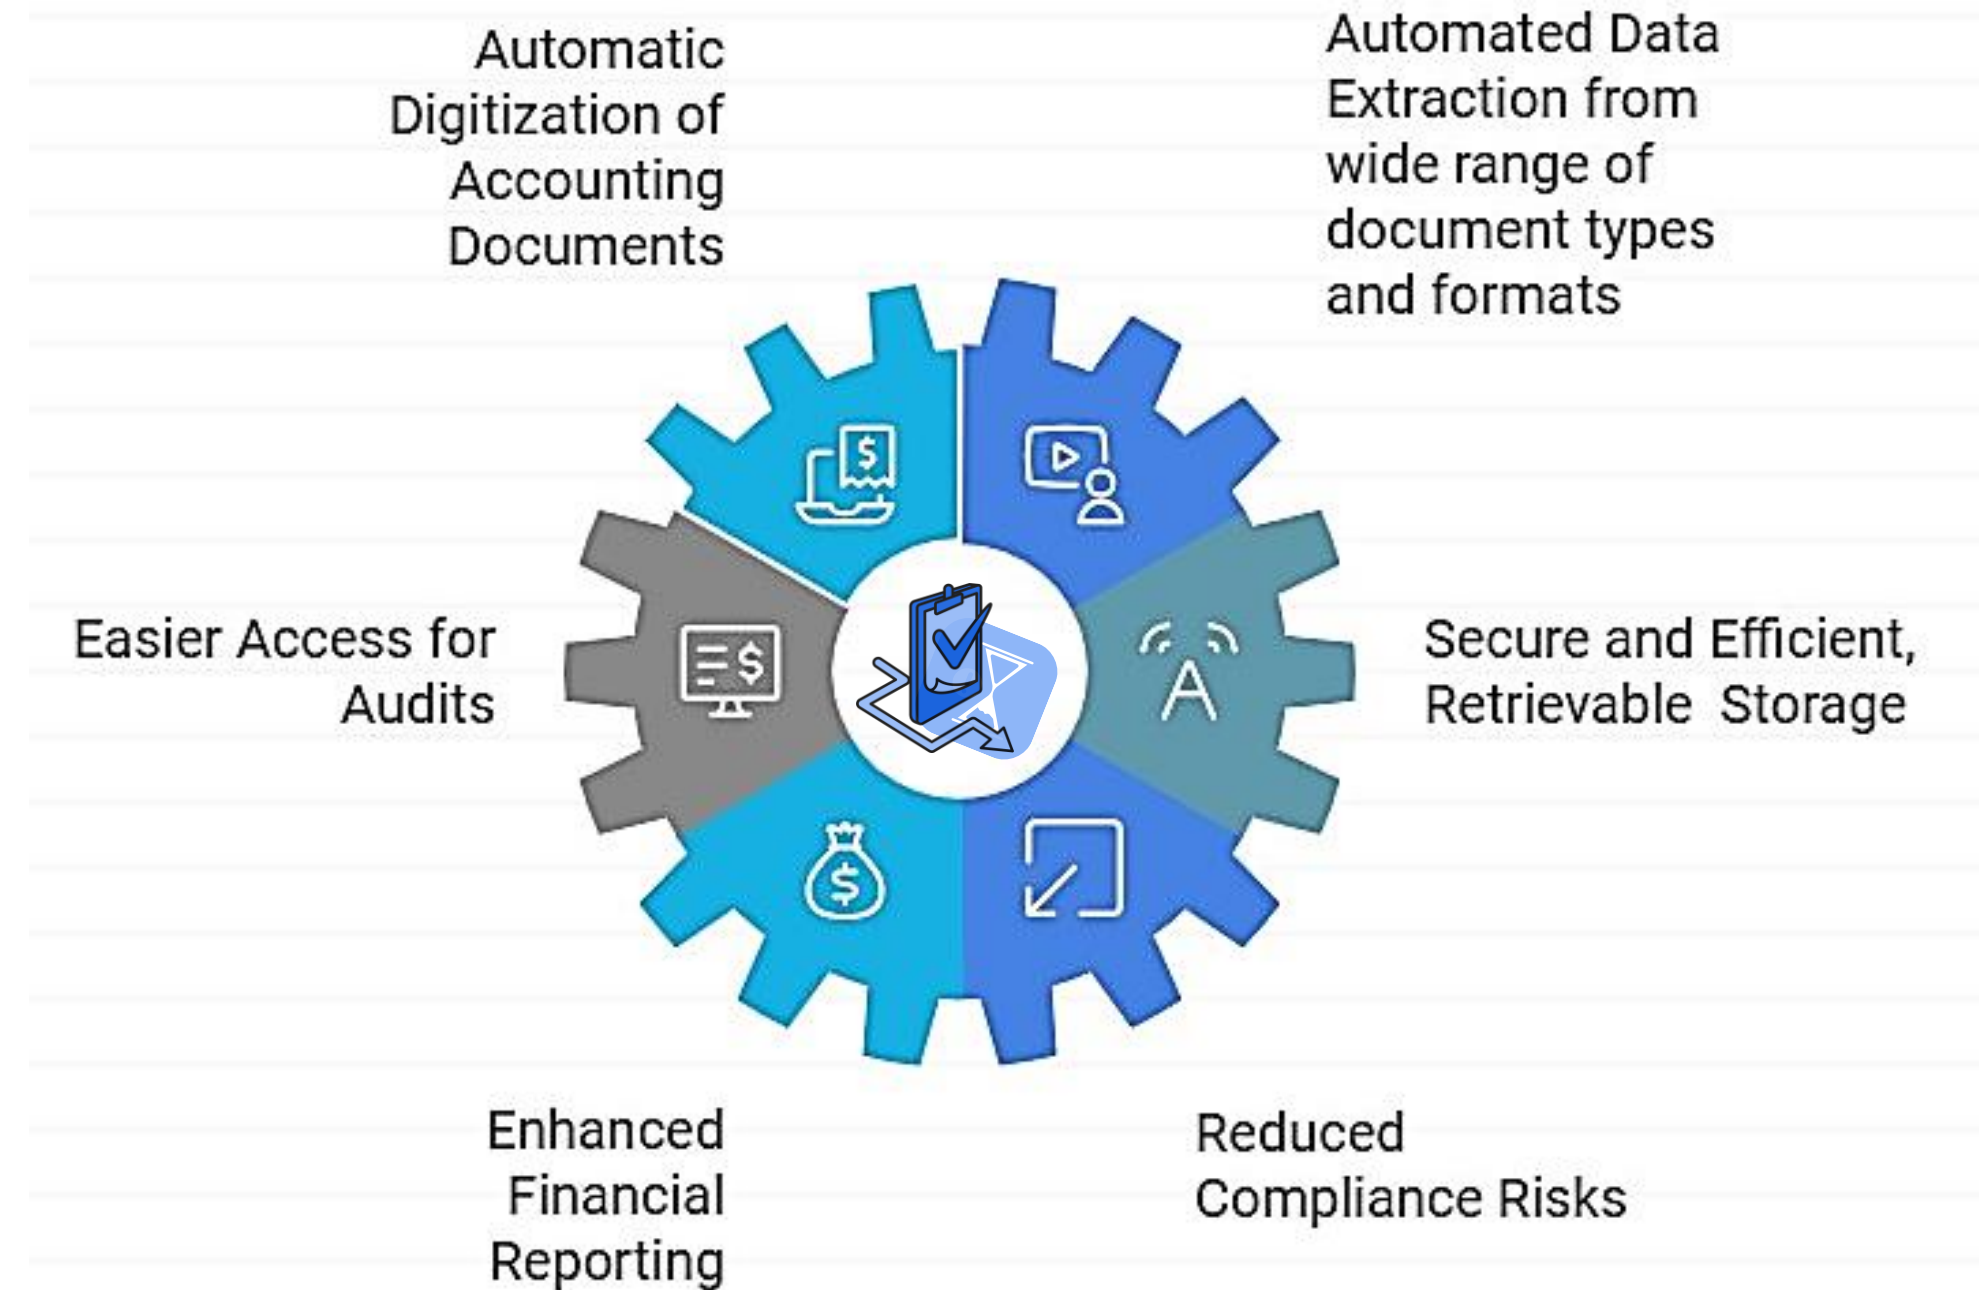

## Avoiding Accessibility Issues:

# The **Pain Relief** offered by *vDigiDocr*

## Avoiding Non-Compliance:

# The **Pain Relief** offered by *vDigiDocr*

## Regulatory Compliance

Our solutions are meticulously designed to align with:

### Laws & Regulations

Adherence to legal frameworks including GDPR, CCPA, HIPAA, and PCI DSS.

### Compliance Requirements

Our team collaborates with industry experts to embed essential measures, allowing you to concentrate on growth.

### Best Practices

We implement industry best practices to ensure our solutions are secure, reliable, and scalable.

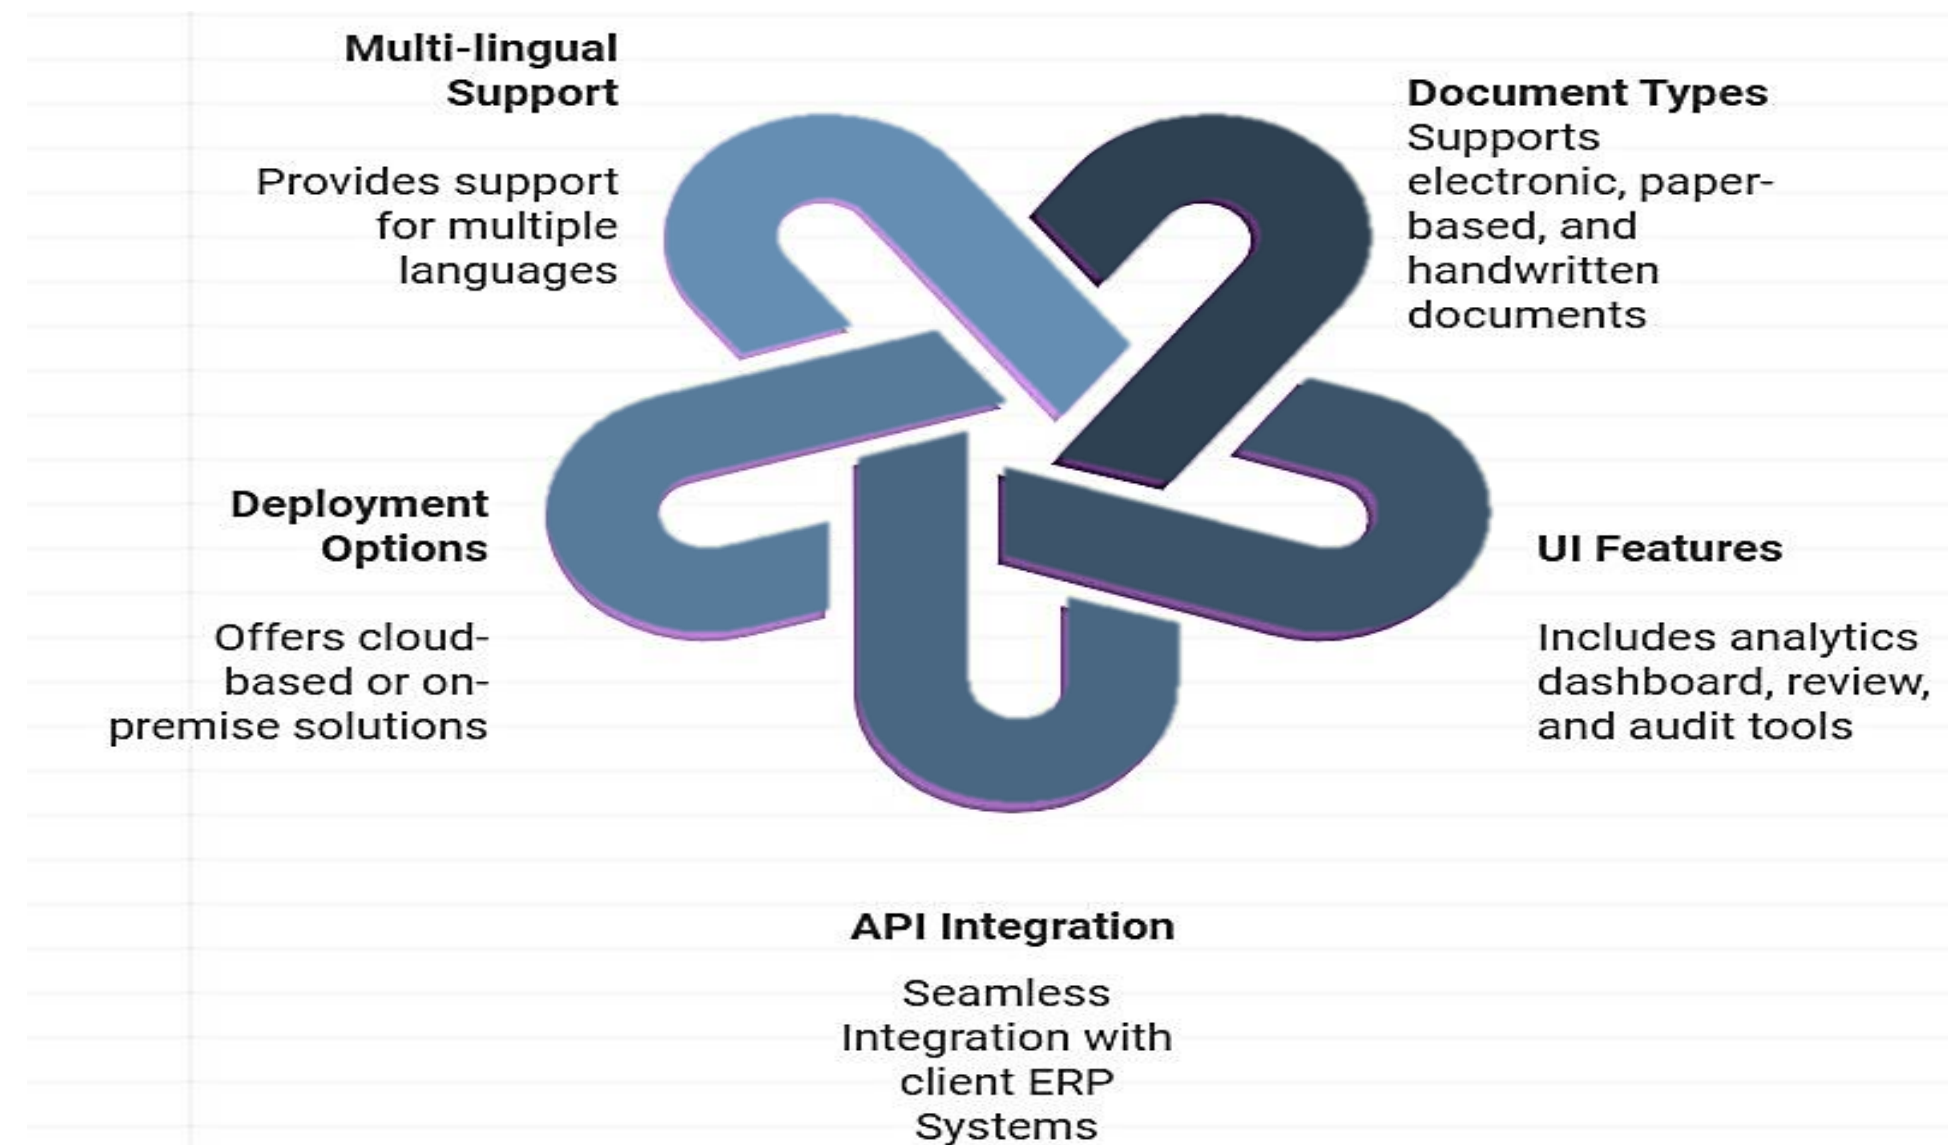

### Security

Cyber Security &  
Data Security  
In-Transit and  
At-Rest Encryption

# *vDigiDocr* Key Features

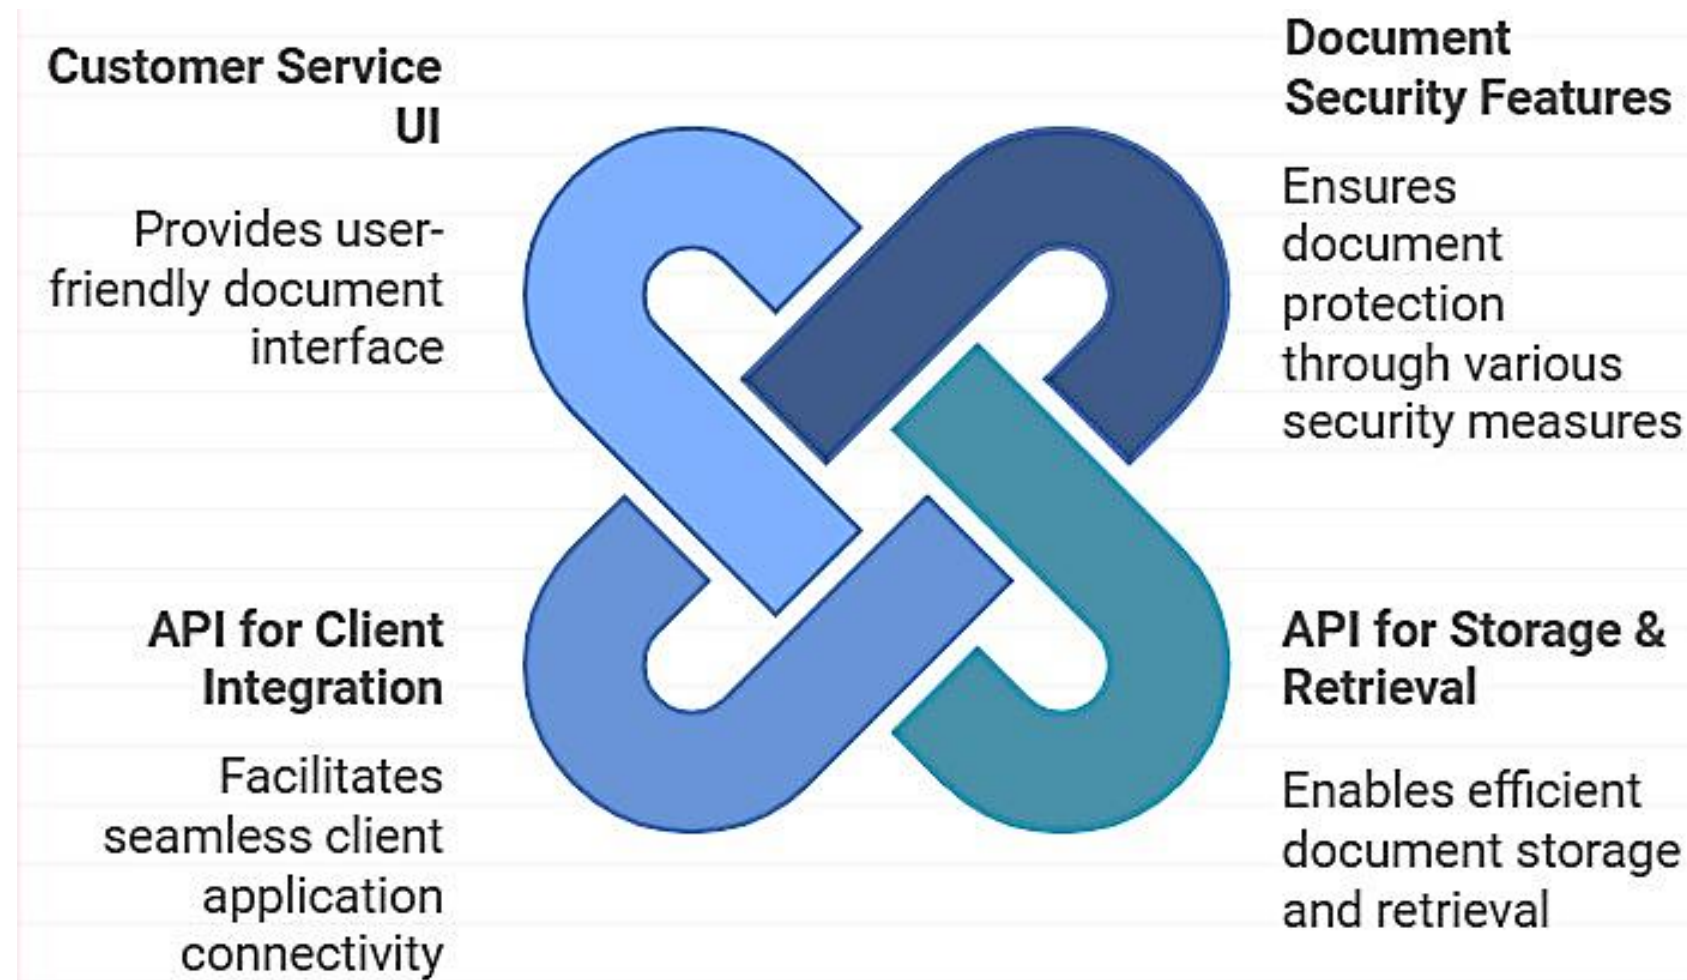

An AI-powered OCR software platform designed to scan, digitize and extract data, allow editing, protect, permit collaboration, and share all types of documents and their data, to maximize efficiency in digital workplaces.

# vDigiDocr Available Add-Ons

1

## Document Management System

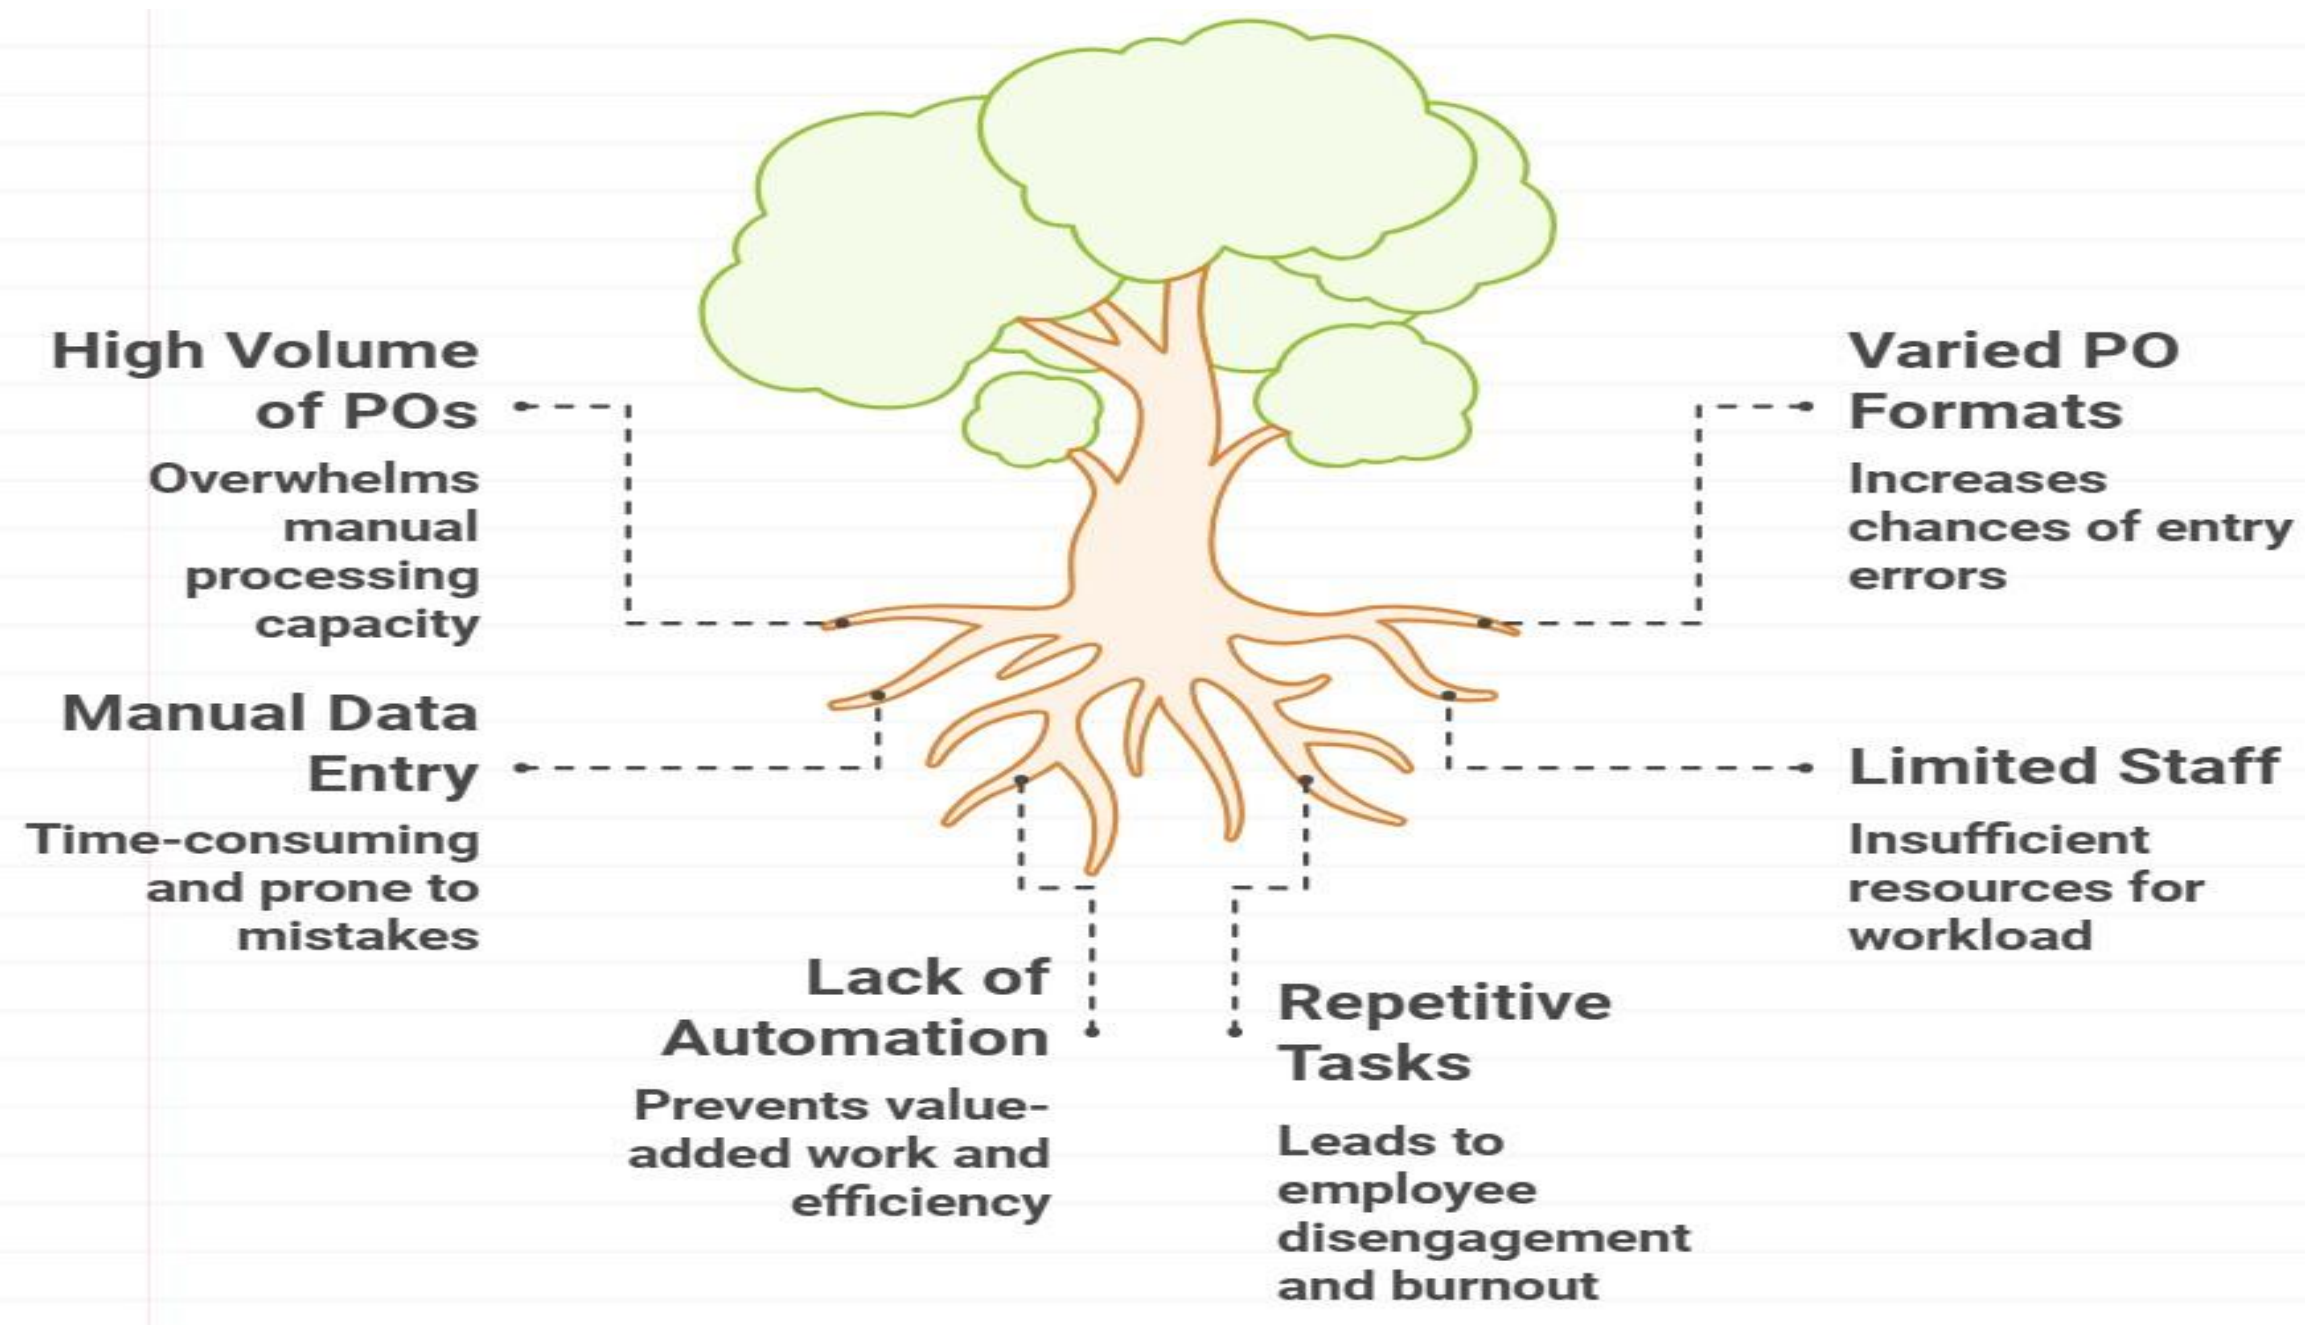

2

**Model Training Module:** - vDigiDocr Platform supports new document types by providing a model training module which facilitates automated workflow from preparation to generating and updating the trained model on the platform.

# Case Study - Horeca Distribution

## The **Pain Points** of Their Manual Process

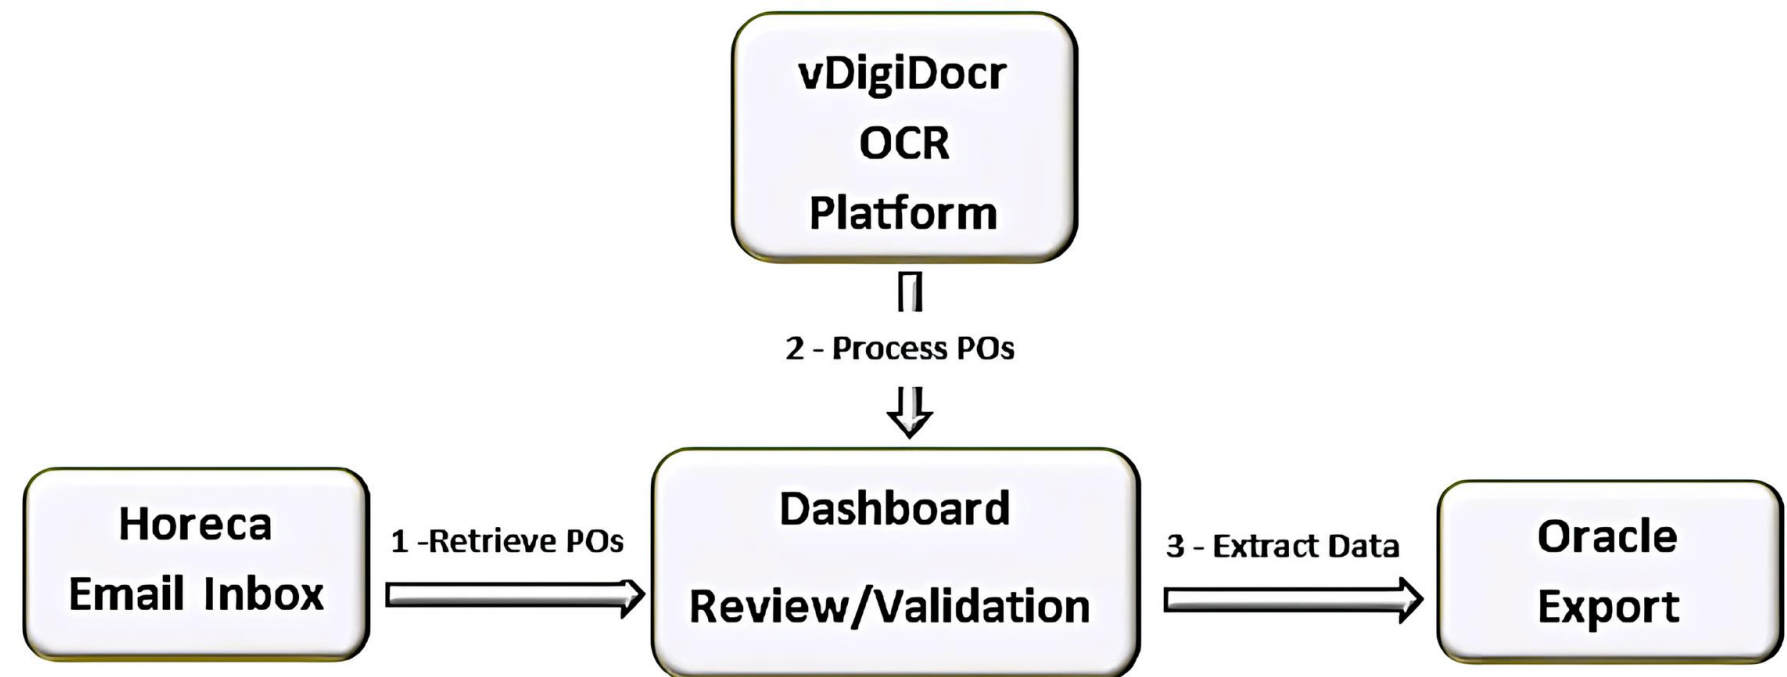

# The Horeca *vDigiDocr* Solution

The Solution we implemented was an AI-Powered OCR platform with integration to incoming emailed Purchase Orders and outgoing data into their existing ERP, with a User Interface for monitoring the status and making corrections where required.

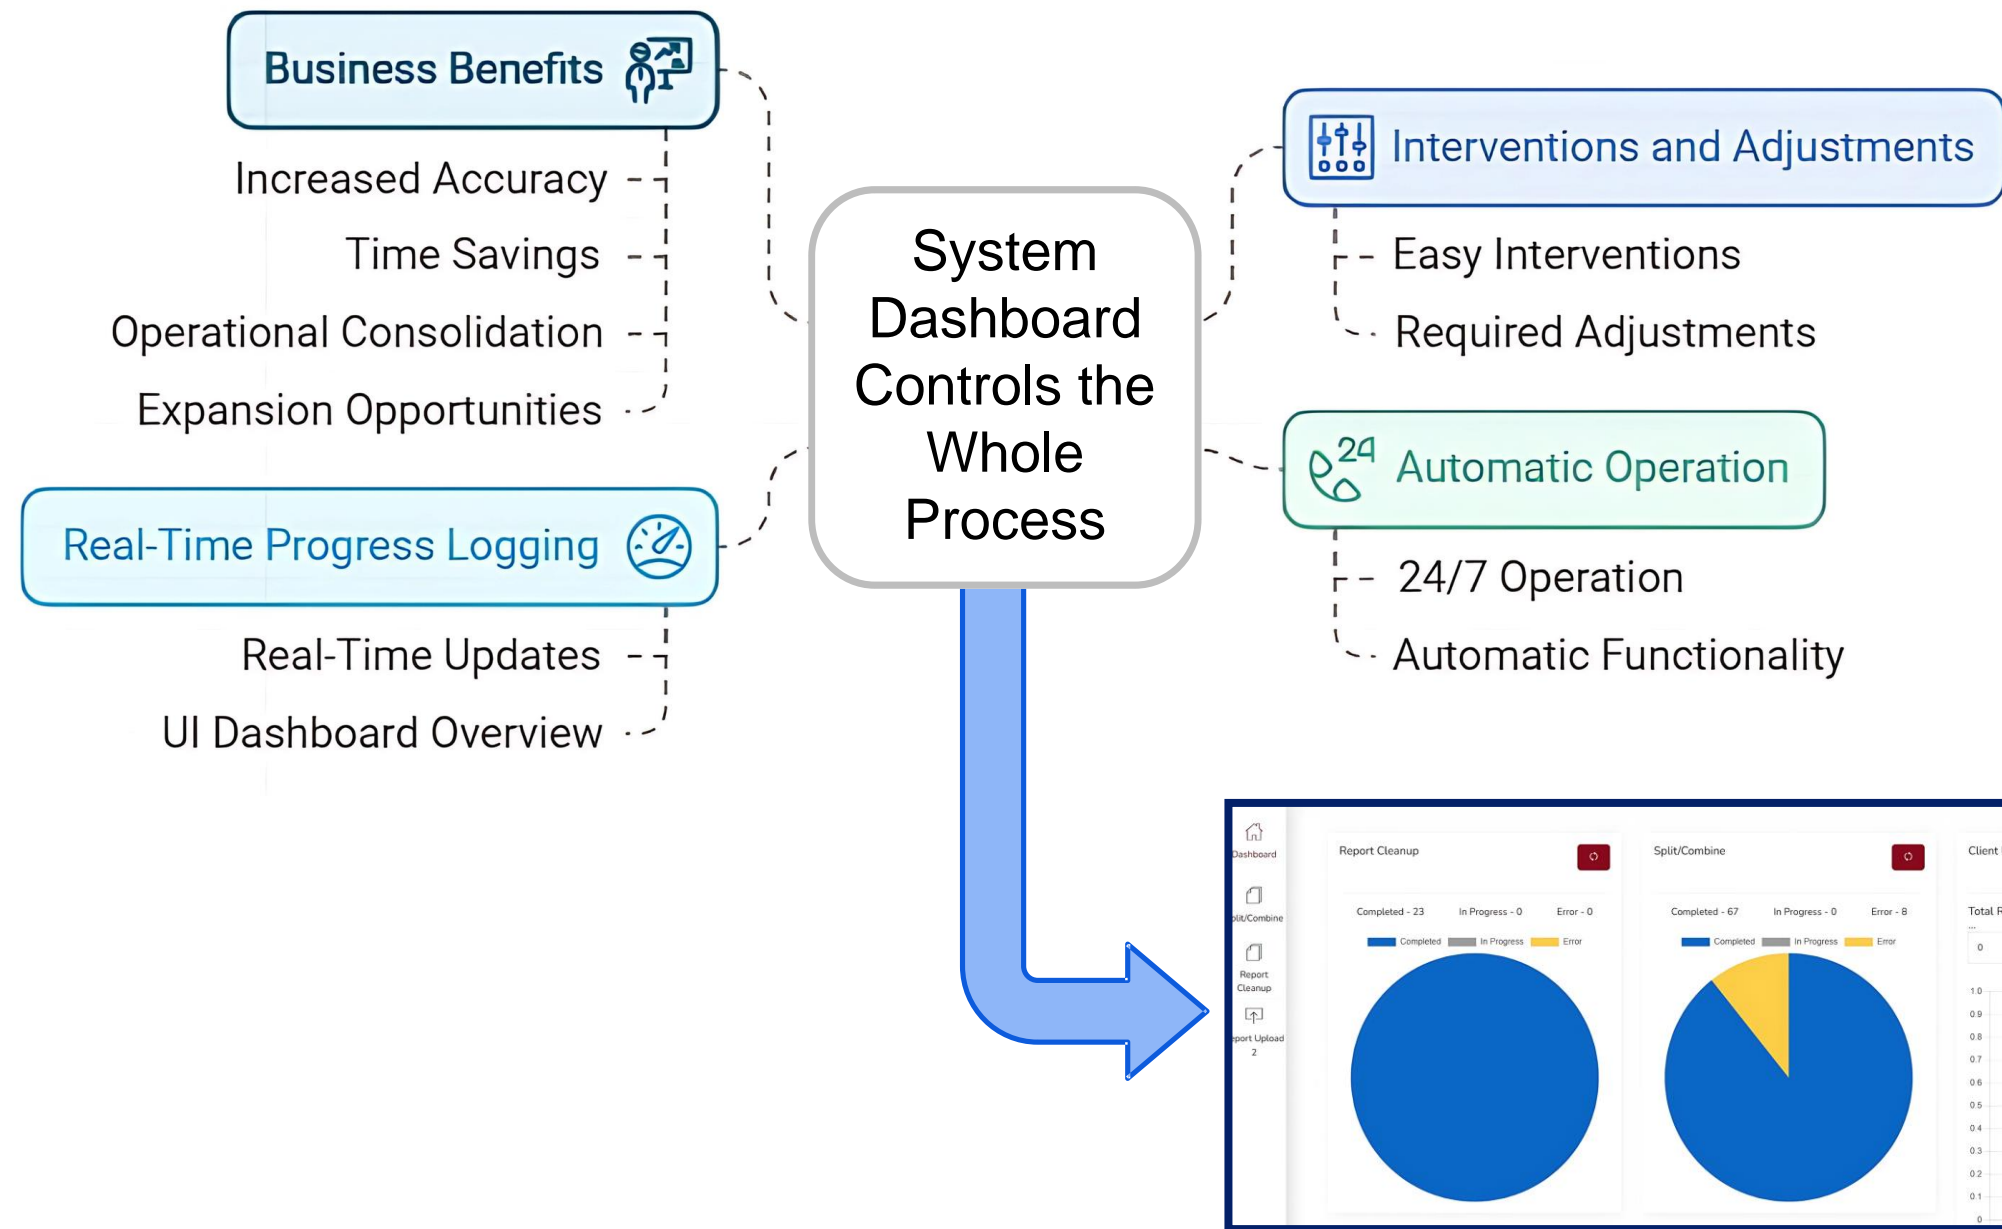

## The Process:

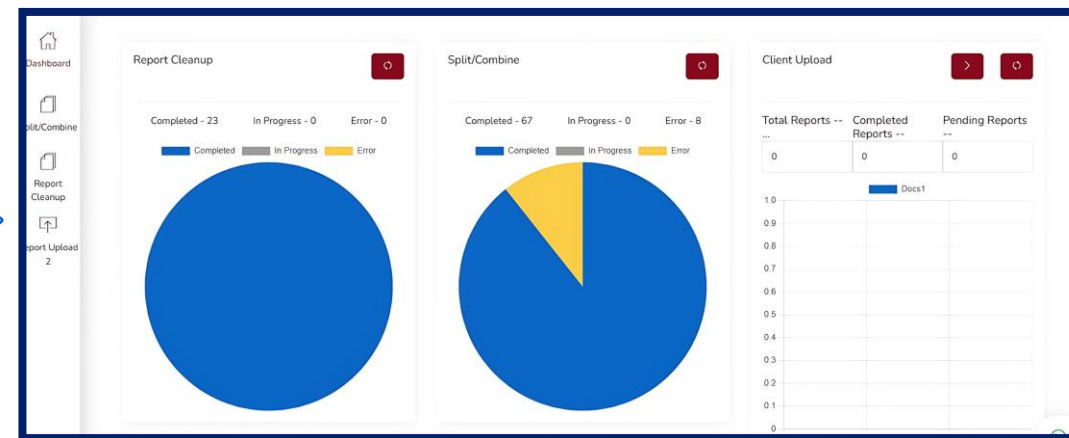

## The Technology which delivers it:

# The Benefits it Brought to Horeca
